

# Technical Materials

## Filtration and Separation

Widely found in a multitude of filtration and separation applications, Neenah Technical Materials are used for membrane casting substrates, cartridge support, media laminate and gas and liquid filter media.

Materials of Composition		Applications								
Fiber	Binder System	Membrane Casting Substrates			Filter Media Gas & Liquid		Cartridge Support	Media Laminate		
		Standard	Special	Reverse Osmosis	Ultra Filtration	Micro Filtration			Coarse	Fine
<b>Craneglas</b>										
230	Electrical Grade Glass	PVOH	Upon Request				X		X	
330	Electrical Grade Glass	PVOH	Upon Request				X		X	
<b>Cranemat -- Traditional Polymers</b>										
SR	100% Polyester (PET)	None					X		X	
CB	Bicomponent PET/PE	None					X			X
CU	Calendered PET	None		X	X	X		X		
RS	Calendered PET	None		X		X			X	X
RC	Calendered PET	None		X		X		X		
SC	Calendered PP/PE	None		X	X	X		X		
<b>Cranemat -- Harsh Environment / High Temperature Polymer</b>										
CC	Poly Phenylene Sulfide	PVOH		X	X	X	X
